

PERSONAL PROTECTIVE EQUIPMENT LIGHTWEIGHT DEMINING HELMET

Lightweight Demining Helmet

The Lightweight Demining Helmet (LDH) provides head and face protection against blast-type anti-personnel (AP) mines.

The helmet has ventilation holes to help reduce physiological heat stress. The full-face visor provides protection against Fragmentation, Overpressure, Blast-induced Head Acceleration and Heat/Flame.

- Proven through extensive live blast testing
- Widely deployed in demining theatres

Universal Applique

An optional, anti-fog appliqué can be added to the inner and outer surface of the visor of the LDH.

- Increases level of scratch resistance
- Self-adhesive appliqué
- Reduces misting
