

T7 TACTICAL VEST

The T7 Tactical Vest is an NIJ Level IIIA full coverage vest that provides torso fragmentation and small arms ballistic protection for users engaged in a range of operational scenarios. It meets the needs of operators for lightweight protection and mobility. The T7 utilizes a shooter's cut platform, and includes a cummerbund, lower back and collar components.

This vest offers a sleek design that integrates well with the Med-Eng TAC 6E protective ensemble.

PRIMARY FEATURES

- Adjustable for coverage and comfort
- Ballistic suspension for proper panel alignment
- Constructed of durable nylon fabric with a water-repellent coating
- Velcro brand fasteners on the front and back for ID patches
- Spacer mesh on body side for ventilation and comfort
- Over-the-shoulder ballistic inserts
- MOLLE webbing attachment coverage for pouches and accessories
- Fully adjustable shoulders with communications pass-through
- Expanded rear drag strap for emergency extraction
- Internal panel suspension system for panel support and placement
- External ballistic cummerbund with MOLLE webbing

COMPATIBLE EQUIPMENT

The T7 integrates with the Med-Eng TAC 6E protective ensemble to form a blast protective solution. This solution does not replace a full scale Bomb Suit but instead offers an alternative based on lighter weight, greater mobility and modular components. For facial protection, the Med-Eng TAC Visors and ARC Visors can be worn with various combat and tactical helmets. Users are encouraged to consider compatibility of the visor and helmet by speaking with their authorized Med-Eng representative prior to ordering.

PROTECTION

The T7 is Certified NIJ IIIA and offers protection against fragments from a blast event. For details, please contact your authorized Med-Eng representative.
